

Hemorrhoid Banding - A method of Hemorrhoids Surgery

You suffer from hemorrhoids, do not be disheartened because despite the pain and inconvenience caused, **hemorrhoids** are not a life-threatening nor dangerous malady. The longest that you will be in pain by **hemorrhoids** is two weeks. Normally doctors would recommend surgical treatment regarding hemorrhoids treatment.

Hemorrhoids that are of the fourth degree type typically require medical intervention though there are natural remedies to relieve you of this problem. The fourth diploma hemorrhoids refer to the prolapsed and the **external hemorrhoids**. These hemorrhoids are just too big to be pushed back into the rectum.

- Rubber band is used where the doctor places a special rubber band around the base of the hemorrhoids.
- This band will cut off the blood supply to the hemorrhoid enabling the later to contract and later go away.
- It takes about two weeks for the hemorrhoid dropping.
- Of course there are side effects such as pain and infection.
- Recurrence of hemorrhoids, swelling and pain around the area can also happen.

You want to avoid the side effects of rubber banding after that it can be more suitable that you go and review the various home remedies available to get rid of hemorrhoids. The steps below can be used after you have undergone rubber band ligation in order to minimize the post operative side effects. These remedies are readily available in the grocery and pharmacy.

You can Try to Contract the Hemorrhoids Using the Sitz Bath

You soak the buttocks in a bath that contains warm water for about three times daily. Other than using warm water, you can also add in Epsom salts or herbal salt to be able to the bath but refrain from using fragrances and washing soaps because these normally cause irritation. Using the sitz bath will eliminate pain and allow the hemorrhoids to shrink.
