

How Long Does It Take To Get rid of hemorrhoids - Do you Know?

How long does it take to get rid of **hemorrhoids**? Well, it depends. There are around 80 per cent of people globally who suffer from hemorrhoids. Women who have had children usually experience hemorrhoids temporarily.

- There are times where these come and go inside a few days but then could eventually go back with a vengeance.
- Some people have the symptoms and some don't.

What are hemorrhoids? This is a condition where veins around the anus as well as in the rectum become swollen itchy and inflamed. Hemorrhoids develop through straining any time one needs to have a **bowel** movement as well as during pregnancy and by means of chronic constipation or severe diarrhoea as having anal intercourse on a regular basis.

You can develop either internal or **external hemorrhoids** which are also known as **piles**. Itching as well as pain and bleeding are symptomatic that one has piles. These are not usually life threatening if treated although complications like anaemia and other complications could arise should there be uncontrolled bleeding.

- The most notable sign is blood in the feces or bloodstream in the toilet bowl and also on the toilet paper blood will be noted.
- Inner hemorrhoids may start to protrude from the anus in which case severe discomfort as well as pain will be knowledgeable.
- The hemorrhoids might be hard that will indicate a blood clot and this is referred to as a good thrombosed external hemorrhoids.

When you find hemorrhoids do not keep rubbing the area due to the itching as well as excessive cleaning as this can also cause inflammation and bleeding and can end up in a vicious cycle causing infection. The mucus that drains through his area can also cause severe itching.

Hemorrhoids are common in both men and women especially pregnant women due to the pressure of the fetes which ultimately lies against the abdominal wall and of course hormonal changes can cause the anal vessels to enlarge and when giving birth this places an enormous amount of pressure on these kinds of vessels which is almost always temporary in many instances.

Should any of these symptoms sound familiar then it is suggested your going and find out a professional or your general practitioner and receive treatment. This will eliminate the symptoms of itching swelling and bleeding normalizing your lifetime again. Now you don't have to wonder what are hemorrhoids and how long does it take to get rid of hemorrhoids.
