

# Picking The Best Hemorrhoids Treatment For You

No one like to have case of the **hemorrhoids** because it is very discomforting and painful. Fortunately, there are quite a few **hemorrhoid** treatments available, both home remedies and ones you have to go to your doctor for. Basically, you can treat them on your own in the event that they aren't that bad, however, if the condition does not get better, you must see a doctor. The **hemorrhoid remedies** that are discussed below have worked for a lot of people.

## Drinking More Water is an Extremely Simple but Extremely Effective Hemorrhoids Treatment

Softer and more regular **bowel** movements often result as the water flushes out the body. Dehydration leads often to constipation which plays a role in the hemorrhoid problem. While it is always important to drink water, having pure fruit and vegetable juices will also help hydrate yourself. A wise investment may be the purchase of a juicer. In addition to hydrating you, fresh fruit and vegetable juices also provide fiber which can prevent and cure hemorrhoids. However, the most important material to be able to consume continues to be water.

## Garlic is Another Easy and Completely Natural Treatment for Hemorrhoids

Effective healing and anti-inflammatory properties can be found in garlic. You can take garlic in many different ways. Ingesting garlic capsules are often an easy way to take it, though you can certainly eat it in foods. In addition to being more concentrated, you also don't have to worry about garlic breath. Another option will be using the garlic externally to be able to hemorrhoids to be able to reduce swelling and pain. Placing a teaspoon of crushed garlic on square gauze can create a straightforward garlic compress. Apply this shrink to the anal area for about ten to fifteen minutes in order to destroy harmful bacteria and lower swelling.

## You Have a Kind of Hemorrhoids that Won't Go Away, You Must See a Doctor

You'll find so many medical treatments that you can get, but one easy and effective one is called rubber band ligation. This is an outpatient medical surgery which should only be done by a medical professional in the doctor's office. After a couple of days, both the rubber band and the hemorrhoid will come out throughout a bowel movement. In one fashion or another, this secure and effective treatment has been used for hundreds of years.

- The only objective with a hemorrhoid condition is to find immediate relief from perhaps any source available.
- Usually, you don't have to wait too long for the problem to clear up, especially if you apply one of the methods discussed above.
- When something is not effective or to your preference, then by all means switch to another treatment method.
- There's really no good reason why you need to endure the pain and discomfort of hemorrhoids considering all the various treatments available.
